Personal Profile

Highly passionate nerd and results-driven technology leader with 6+ years of experience in driving strategic initiatives, implementing innovative solutions, and building high-performing Teams. Proven track record of successfully leading large-scale technology projects both in the Development and Digital Infrastructure area.

Experience

bexio AG

Rapperswil, CH

bexio is a Swiss market leader for cloud-based business software for small companies. Bexio software is now used by over 50'000 companies.

HEAD OF TECHNOLOGY

2022 - PRESENT

- Led SRE Team towards GitOps including taking ownership of the infrastructure used by 50K+ Customers during the first 6 months
- Introduced Quality Assurance Team to the Shift-Left concepts and helped coaching test culture across 5+ development Teams
- Created the Architecture Team from scratch, to ensure long-term platform sustainability and cost optimization
- Directed near-shoring Teams counting 10+ people in 3 different countries

e-globe solutions AG

Lugano, CH

e-globe solutions is a software company based in Bern, delivering custom IT solutions and integrations for the Fiber Optics market. Recently, it entered the SaaS service with "godoo", a process automation tool.

HEAD OF DEVELOPMENT

2017 - 2022

- Led the Development Team, counting 12 specialists from Junior to Senior level
- Led the whole Lugano branch office, reporting directly to the CEO
- Become Scrum Product Owner of the company's main product, worth 60% of the total revenues
- Managed internal and external stakeholders to win funds totaling 5 MCHF
- Directed feedback process, including periodical performance evaluations and salary reviews
- Migrated on site services to AWS Cloud, to get a 20% development cost reduction by December 2021
- Developed automation tools to increase the Team productivity by 15% in two years

SOLUTION ARCHITECT

2015 - 2017

- Designed and implemented the corporate software product from scratch using React / .NET Core / Java / MySQL stack
- Implemented microservice Docker-based infrastructure, cutting the downtime by 50% over the first year
- Maintained Customer relationships, including Change Requests negotiations

JUNIOR SOFTWARE DEVELOPER

2014 - 2015

- Developed real time bidirectional platform integrations with external systems (WSG, ALEX, CRM, Customer Portals and Workforce Management Tools) using C# / .NET Framework technologies
- Designed REST Web API using both RAML and Swagger (OpenAPI) standards
- Implemented CI/CD infrastructure based on GitLab and Jenkins
